

Session 10 - S - Science in the Bible.

Get the workbook and tract at greatcommissionalliance.org/shop

1. S - The Bible is _____ accurate.

- a. The Bible has scientific _____ but it isn't a science textbook.

2. General revelation and _____ revelation.

- a. General revelation is what can be known about God from _____ alone.
- b. There is a lot about God that can only be revealed through His Divine revelation, the _____.
- c. There is no real _____ between the two?
- d. When it seems like there is a conflict, it is usually a _____ of one or the other.

3. A few examples of scientific statements in the Bible.

- a. _____: Genesis 1:1 says, "In the beginning God created the heavens and the earth."
 - i. Science has now confirmed there was a _____.
- b. _____ in the beginning: Gen. 1:3 - "And God said, 'Let there be light,' and there was light."
 - i. In his book, Nobel prize winning atheist Steven Weinberg states that in the beginning, "the universe was filled with light" and light "formed the dominant constituent of the universe."
- a. Adam and _____: Gen. 1:27 - "So God created man in his own image, in the image of God he created him; male and female he created them."

- i. _____ use the terms Y-chromosomal Adam and Mitochondrial Eve.
 - b. The _____ of the universe: Ps. 104:2 states, “he stretches out the heavens.”
 - a. The _____ nature of the earth: Is. 40:22 says, “God is enthroned above the circle of the earth.”
 - b. The 2nd law of thermodynamics (_____): Ps. 102:26 says the heavens and the earth “will all wear out like a garment.”
 - c. General Relativity: Ps. 90:4 and 2 Peter 3:8 both assert that time can be viewed or _____ in different ways by different observers.
 - d. _____ decay: 2 Peter 3:10 says that the “elements will be destroyed by fire.”
 1. Stoicheion (στοιχείον) the Greek word for _____ means, “first thing, from which the others belonging to some series or composite whole take their rise, an element, a first principal.”
 - e. Earth’s _____: Job 26:7 tells us that earth’s foundation is hung on nothing.
 - f. These are just a few of the Bible’s scientific statements; together they add to a _____ and cumulative case for the Bible.
1. **Summary:** Science points us to God. The Bible isn’t a scientific textbook but it does have scientific statements that show God’s fingerprints on His word.

Review the BEST FACTS acronym and discuss this session and questions:

1. What are some things we can know about God just from nature?
2. What are some things we need the Bible to know about God?
3. Which two scientific statements were most surprising to you? Why?

Answers: Scientifically, statements, Divine, creation, Bible, misunderstanding, Creation, beginning, Light, Eve, Scientists, expansion, spherical, entropy, experienced, Radioactive, elements, foundation, and comprehensive.
